PROFILE

Enthusiastic and highly skilled Frontend Developer with a strong passion for creating elegant and functional web applications. Seeking a challenging position that allows me to leverage my expertise in front-end technologies to deliver exceptional user experiences.

PROJECTS

Personal Portfolio

The Personal Portfolio website was created using the React framework, with the incorporation of the Tailwind CSS framework to enhance its visual presentation and user appeal. Additionally, GSAP animations were implemented to augment the overall aesthetic appeal.

Movix Project

Movix Project is a dynamic web application that was developed using React and Redux, enabling users to explore movies and access comprehensive details through a user-friendly interface. The application offers an extensive collection of movies and TV shows.

Duo-Studio App

Duo Studio is an impressive web project that seamlessly blends HTML, CSS, JavaScript, and the magic of GSAP animation to deliver an immersive and visually captivating online experience. This showcase of modern web development techniques demonstrates the potential of creative design, smooth interactivity, and elegant animations.

Golf Club Website

The Golf-Club web application was created by harnessing the power of HTML, CSS, JavaScript, and the GreenSock Animation Platform (GSAP). This project is a showcase of innovative web development and animation techniques, designed to engage and immerse users in a dynamic online experience.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, Python
- **Frameworks:** React, Bootstrap, Tailwind
- **Version Control:** Git, GitHub
- **Responsive Web Design:** Media queries, Bootstrap
- **Package Managers:** npm, Yarn
- **Development tool:** Developer tools for browser debugging
